

ISPARTA WATER TECHNOLOGIES and engineering services

06-May-2025

Ladies and Gentlemen, good afternoon .

My name is Adla Khalifa, and I'm the regional manager of Isparta company .

in ISPARTA WATER TECHNOLOGIES and engineering services We focus on delivering sustainable and efficient solutions for water and wastewater systems across the region.

It's a real pleasure to be here today at the Arab water week conference, among such passionate and forward-thinking professionals.

In our work, we've seen how the right combination of innovation, smart design, and engineering expertise can truly transform water systems and make a positive impact on both people and the environment.

This conference reminds us that solving water challenges is not a solo mission. It takes collaboration between engineers, innovators, and decision-makers—all of us working together to secure a better water future.

I'm excited to connect with all of you, and to learn from the inspiring work across the water sector.

Before I conclude, I would like to take a moment to express our gratitude to the organizers of this exceptional event.

As a token of appreciation, ISPARTA is honored to present a special gift to the dr khaldoun, for their outstanding efforts in making this conference a great success.

I'm truly grateful for opportunity to speak her today

Thank you for having me
